DEVELOPMENT

Discover sun protection on a new level with eROLLO of Erfal. The innovative drive system with integrated energy source offers a maximum of energy efficiency. eROLLO is extremely quiet, flexible in operation and in Germany this system is exclusively distributed by Erfal.

How to sleep well

Start into the day with sun. At the push of a button your comfortable, darkened bedroom becomes a bright, friendly room – and everything very comfortable while lying in your bed with your eROLLO.

eROLLO is driven by a new, spring balanced motor and is extremely economical. Drive and batteries are invisibly integrated in the tube. The life cycle of the commercially available batteries is several years (depending on the dimensions and frequency of use). eROLLO works cordless, is simply to install and extremely quiet.

INNOVATION TECHNOLOGY

COMMUNICATION OPERATION

eROLLO offers modern operation methods. It is comfortable and flexible to operate via remote control, smartphone, tablet pc or by hand. Integration in existing house networks is possible.

NAVIGATION CONTROL

You can control eROLLO by the push of a button or manually according to your wishes. Preset and customizable automatic stops make the operation even more comfortable. Up to six roller blinds or rather blind groups can be controlled at the same time.

SINGLE REMOTE

Operate your eROLLO or a group with Single Remote. With the buttons UP and DOWN as well as buttons for the position at 25%, 50% and 75% your eROLLO can be positioned individually.

MULTI REMOTE

With 6 single / group channels and a main collection, Multi Remote offers the control of multiple eROLLOs. With the buttons UP and DOWN as well as buttons for the position at 25%, 50% and 75% your eROLLO can be positioned individually.

eROLLO APP *Available from summer 2013.*

With the app QMotion and Qsync you can control your roller blinds very comfortably from your smartphone or tablet pc.

DESIGN TYPES

Your eROLLO is available in different types. Choose between 400 roller blind fabrics of the current erfal collection. That way you can harmonize most modern roller blind technology and stylish window decoration.

Available in the following colors:

eROLLO **KASSETTE**

ACCESSORIES

EXTENSION DEVICES
